To whom it may concern,  
RE: MSCA Star Certification Program

Dear Sir/Madam:

I am writing this letter on behalf of **W.L. Gary Co., Inc.**

W.L. Gary Co. has been our mechanical maintenance contractor for well over 12 years. They have been excellent. There has never been a time I have called them for an emergency service that I have had to wait; I have always had a qualified technician at the sight the same day.

We presently have five "Pulse" furnaces with DX A/C and you know what a touchy unit they can be, but they keep them running and in first class shape.

This last year we added a new building with an 80 ton chiller and over 30 AHU's, boilers and pumps and they do all the PM maintenance on these units also.

So you can see if they were not **FIRST CLASS** and dependable I would not contract with them.

I highly recommend W. L. Gary company to be accepted to your certification program.

Sincerely,

Bro. Paul A. Hoemeke, OMI  
Special Projects Director
